

2023 AFS Women of The Foregut: The Power of Your Voice in Foregut

As President Elect of the American Foregut Society, I am thrilled to extend an invitation to you for two special events hosted by the AFS Women of the Foregut (WoTF) taking place during the upcoming annual meeting September 28th- October 1st at the Gaylord Texan in Dallas, Tx.

This unique and highly innovative programming will provide women across all career levels, physicians, physician extenders and industry leaders, with an opportunity to network and develop key leadership skills in an educational, supportive, engaging, and entertaining environment. All genders are welcome at both events.

Event Details:

WoTF Coffee Talk 2.0: "Breaking Barriers and Shaping the Future"

Date: Friday, September 29th

Time: 7-9 AM

WoTF Workshop: "LeadHERship: Empowering Women for Professional Growth and Organizational Success"

Date: Saturday, September 30th

Time: 7 PM-late night cocktails (or pajama time whichever comes first)

Coffee Talk 2.0 "Breaking Barriers and Shaping the Future" will feature an intimate round robin format with KOLs and industry leaders hosting at each table (with barista-inspired coffee creations in hand). Through insights, personal anecdotes, and lessons learned, this exchange will inspire and empower attendees to overcome challenges, seize opportunities, and shape the future of our profession.

The WoTF workshop "LeadHERship: Empowering Women for Professional Growth and Organizational Success" will feature a motivational speaker to provide take home advice that can be used immediately in your practice, organization, and life to help you achieve professional and personal success.

I am so excited to serve this incredible organization as president and sincerely believe that your expertise, unique perspectives, and experiences will greatly enrich the discussions and contribute to the success of these special gatherings.

If you have not yet registered for the AFS Annual Meeting, please do so today at:
